

Reassessing? Know which skills you need and homework out ready to show me before you ask for a re-assessment.

When finished, work on EOC preparation

EOC_prep? Work on the big packet from Monday; answer key posted on table in back.

Study formula flashcards (Suggestion: quiz each other!)

What to know about tomorrow's EOC:

- 90 Minutes
- Around 24 questions
- 3 main clusters:
 - Congruence, transformations, triangles and parallelograms
 - Similarity, Dilation, Right Triangle Trigonometry
 - Geometry on the coordinate plane and volume/modeling
- Circles stuff from last 2-3 weeks are not on this test

Tips:

- Calculator in DEGREE MODE
- Watch out for multiple choice (1 answer) vs multiple select
(multiple bubbles to fill in)

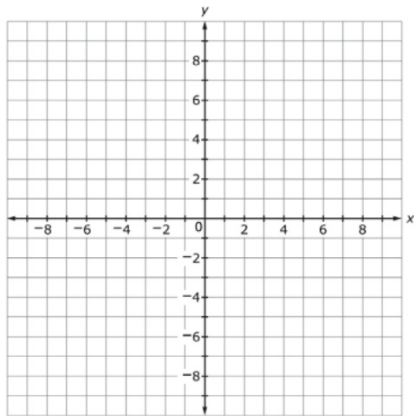

The only clue that a problem is multiple select is the word "**all**"

- Read questions as closely/carefully as possible. Very tricky wording!
- Don't spend too much time on one question
- Let's look at a sample answer sheet:

1

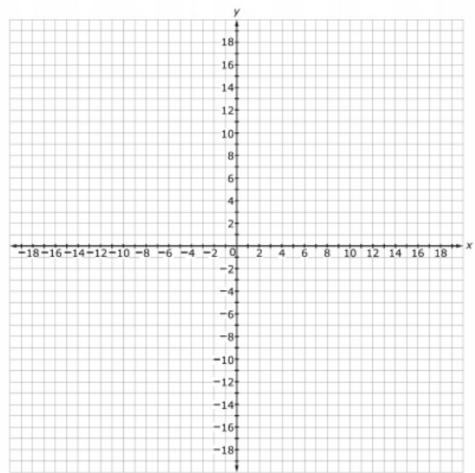

Write your answer in the box above.

2

3

10

11

Write your answer in the box above.

12

Write your answer in the box above.

Tonight:

- Get a good night's rest
- No junk food
- Look over your formulas/Quizlet tonight + tomorrow morning
- Relax, do your best!
